Interested in a career in the marine industry?

The MAST Academy now runs 12-week pre-trade courses (starting in February 2025) for those interested in a career in this industry and provides an introduction to the marine and specialised technologies world, plus one day a week of work experience. This can then lead to an apprenticeship with an employer full-time. Employers are more likely to hire someone who has done a pre-trade than someone who hasn't.

The pre-trade course would benefit anyone interested in boat building, engineering, mechanics, interiors, electronics/electrical, rigging, sail making, marine facility management, deckhand, rocket lab etc. Many students who work in this industry also travel overseas to work on yachts etc.

Check out the pre-trade info here: <https://www.mastacademy.com/mast-courses-pre-trade>

Or do a virtual career pathway here: <https://mastlearning.com/mast-career-pathway/>

There are only 12 spaces available per course.
