Projects Abroad

Are you interested any pursuing studies in medicine and healthcare?

We run overseas medical programmes in countries such as Cambodia, Sri Lanka, the Philippines, Nepal, and our recently added destination, Spain.

The programmes are a close-up insight into a career in healthcare, and students will:

- spend time in a variety of departments in hospitals, shadowing doctors
- support community health drives, taking healthcare to places with little or no coverage,
- attend skills workshops and discussions with local doctors.

These projects run over various school holidays and are a fantastic precursor to further studies in healthcare. Students will experience it alongside a group of like-minded students from around the world. Full 24/7 supervision and care is provided by the Projects Abroad local staff. In addition to the clinical hours, we arrange activities that give an amazing insight into these fascinating countries. You can view and download more detailed leaflets on these projects [by clicking here](#).

Come along to our webinar on Tuesday 12 August, 8:30pm to 10pm. Click [HERE](#) to register.

Students and parents find our Open Day a really valuable experience, helping to broaden perspectives, gain further insights and ultimately help in the career decision making process. Our Open Day runs as follows:

Date: Saturday 6 September

Time: 10:00am to 2:00pm
