### Eat chips - it helps keep people warm!

Did you know chip, biscuit, and foil packets can be fused together to create life-saving thermal blankets for those in need? Plus, it's a massive win for the environment - every foil-lined packet thrown in the rubbish takes up to 80 years to decompose! Let's turn waste into warmth instead.

**How you can help:** The next time you eat chips, biscuits, nachos, or crackers either at school or at home, please don't throw the foil wrapper away! Drop it into the collection bins. By donating your packets, you are joining a nationwide effort to provide warmth to over 102,000 Kiwis battling the cold this winter. Thank you for your kindness and support!
